

The AOCLE Image Collection is a selection of more than 60 images contributed to IACLE by members of the Association of Contact Lens Educators (AOCLE) from many teaching institutions in North America.

The slides show various conditions and, as with the IACLE Image Collection, the images were 'enhanced' as necessary and a PowerPoint presentation previewing all the images is included on the CD.

The images are arranged by donor institution and highlighting and arrows are included in the presentation only. File types on the CD include JPG, TIF, PNG, BMP, or PPT.
